

FDA & DEA Warn Dispensers & Consumers About Online Pharmacies

The FDA and DEA issued a news release April 12, 2022, warning dispensers and consumers about the illegal sale of Schedule II stimulants such as Adderall. They issued joint warning letters to two online pharmacies. They are also urging consumers who purchased product from the online suppliers to dispose of the unused medicine. To assure product quality, dispensers and consumers should only purchase medication from state licensed suppliers.
